

PORTA INVISÍVEL SYNTESIS

Medidas de fabricação da folha, usinagem e estorvo

Nomenclatura:

MN = Medida Nominal

HN = Altura Nominal

LN = Largura Nominal

HV = Altura do vão

HP = Altura de passagem

HF = Altura da folha

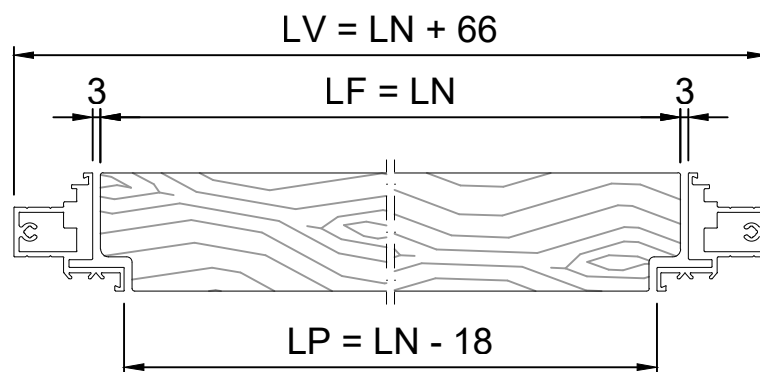

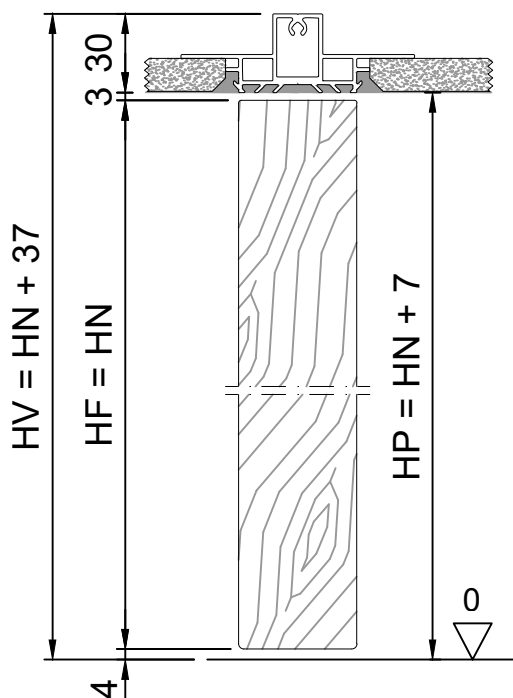

LV = Largura do vão

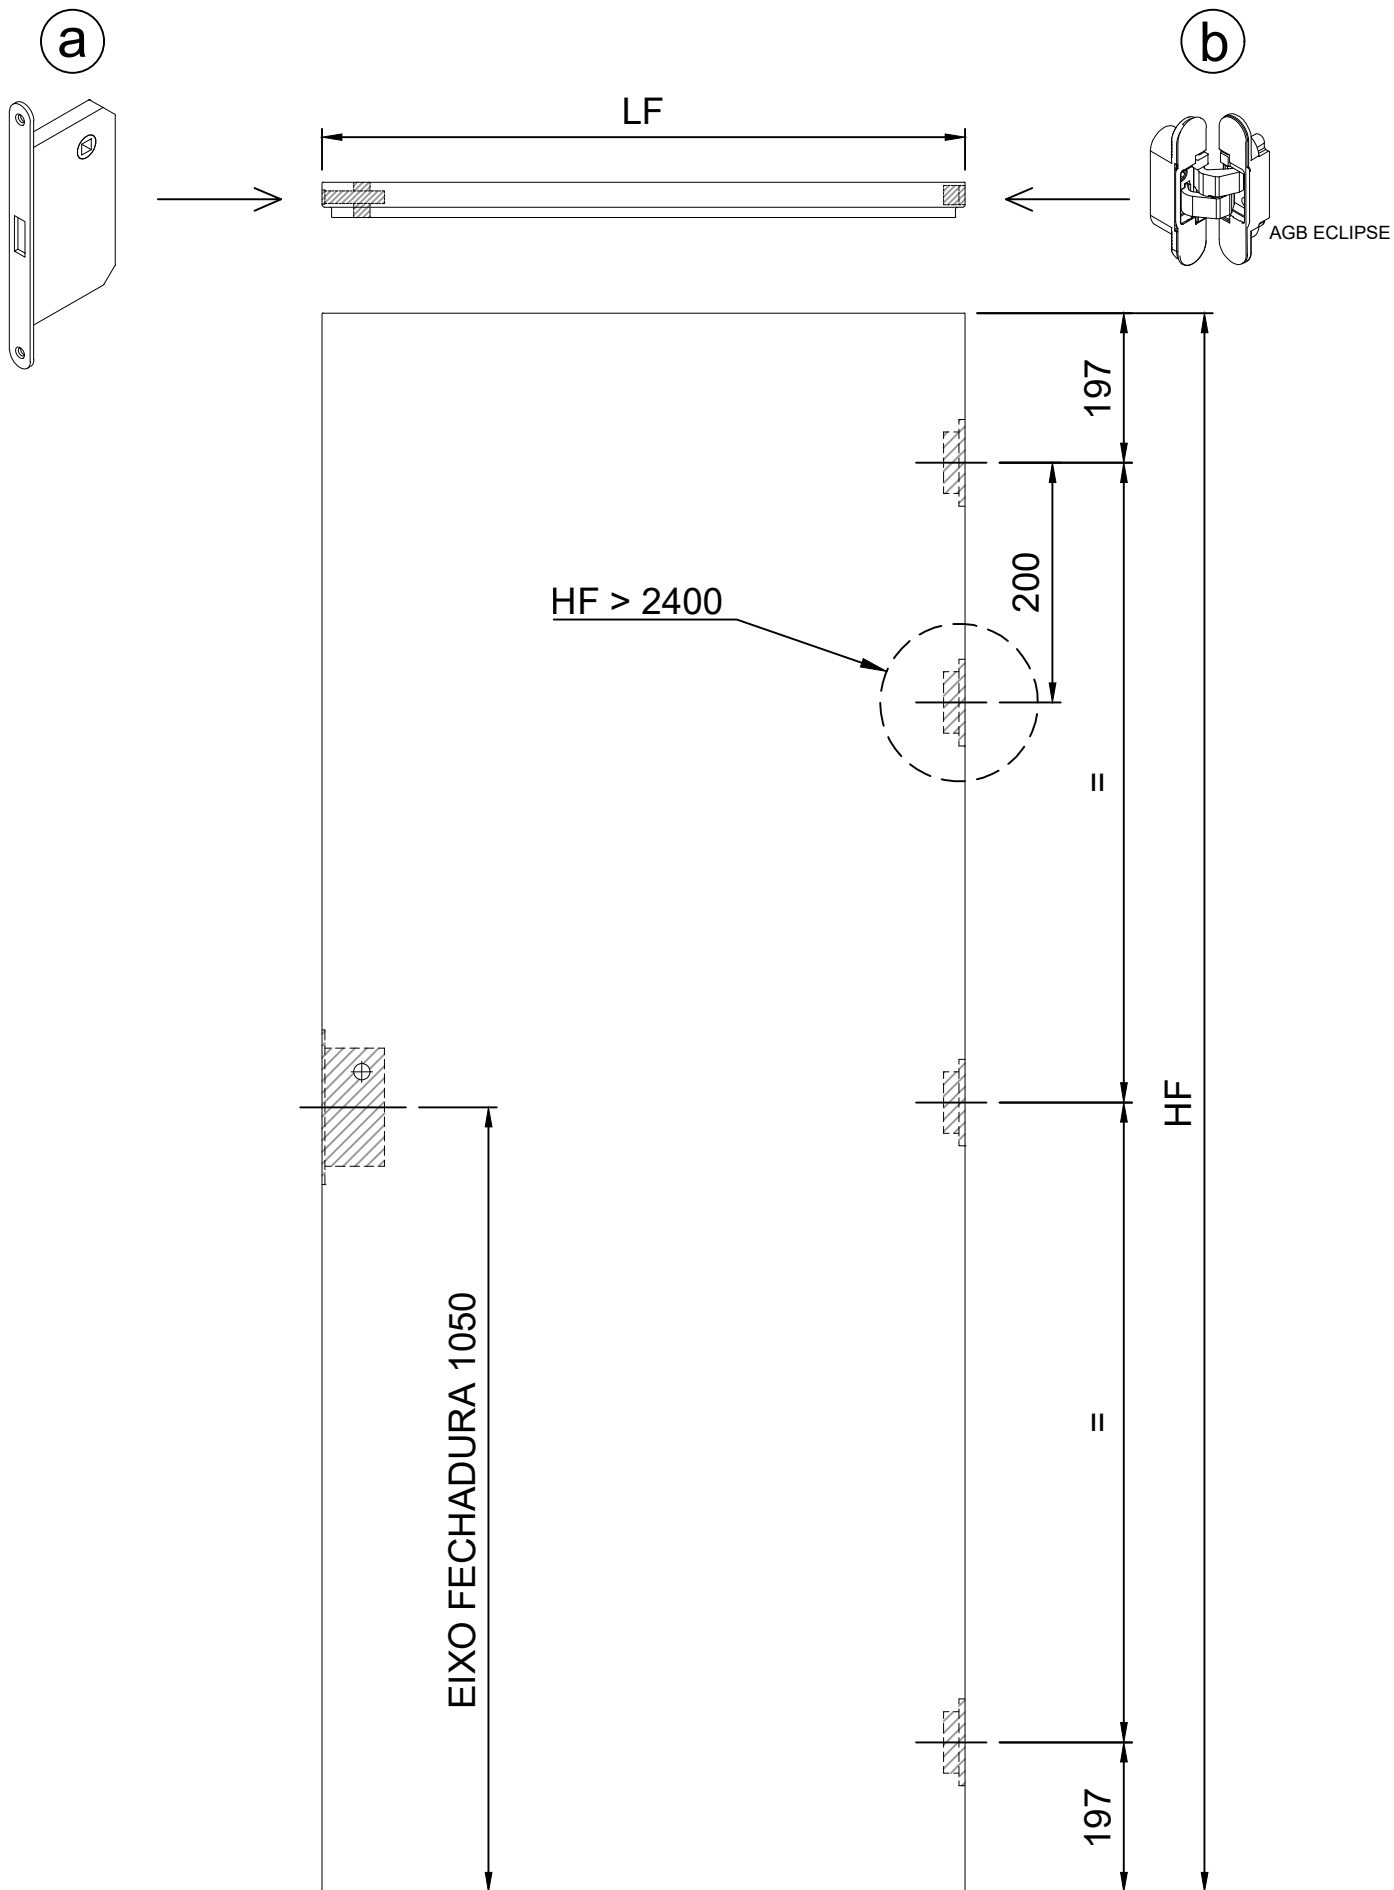

LP = Largura de passagem

LF = Largura da folha

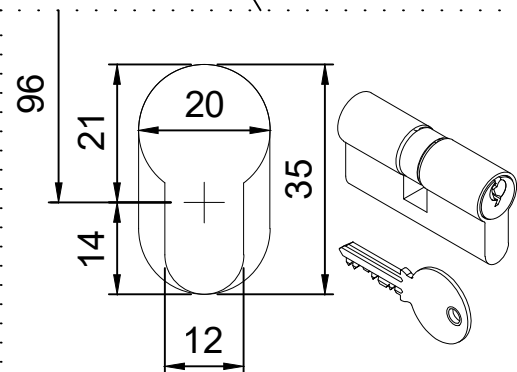

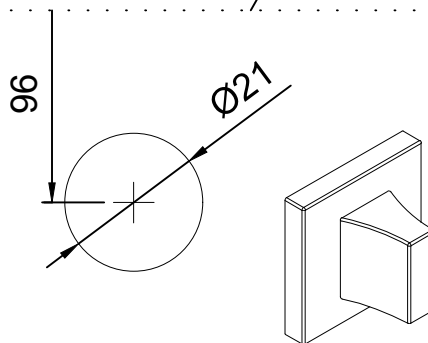

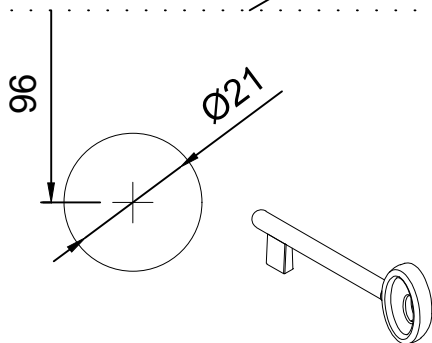

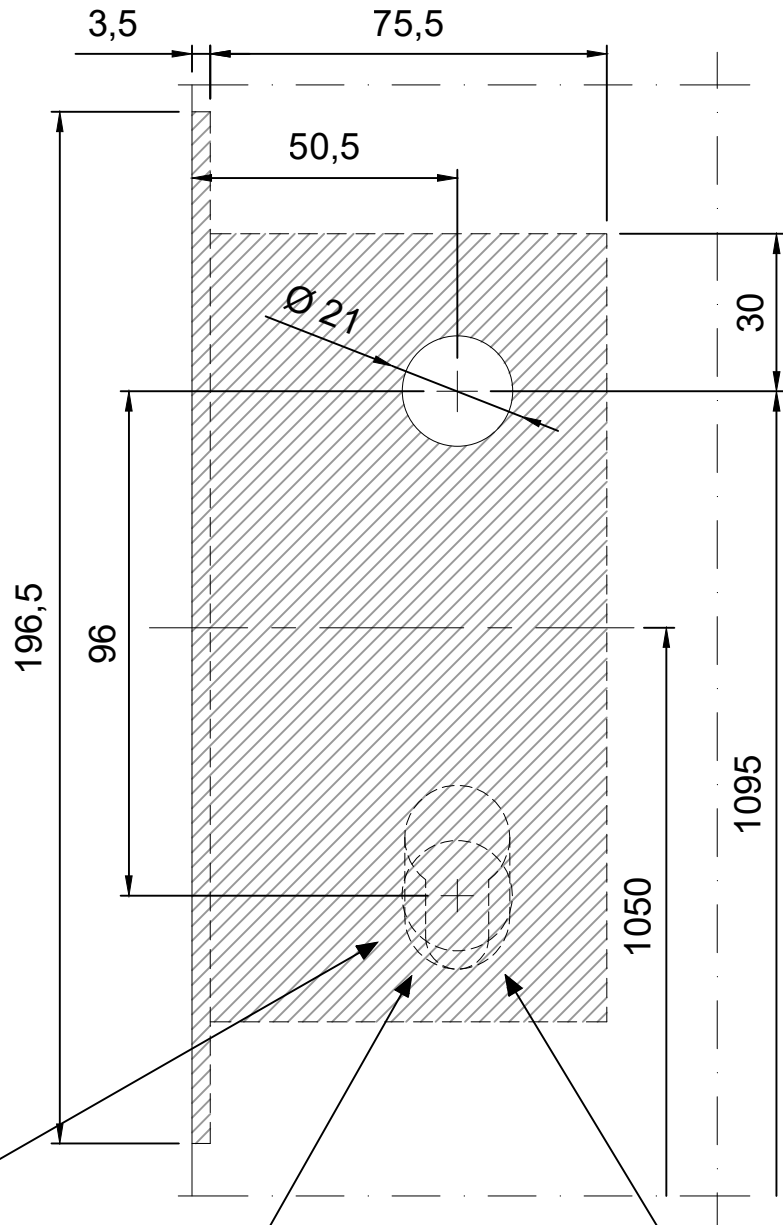

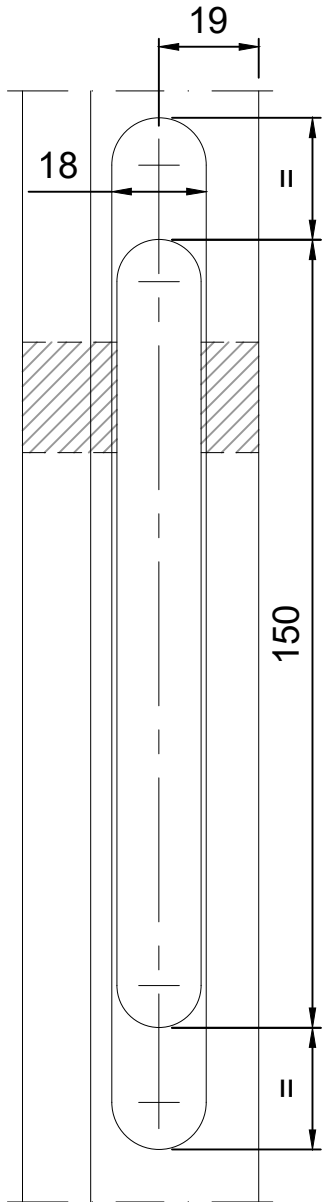

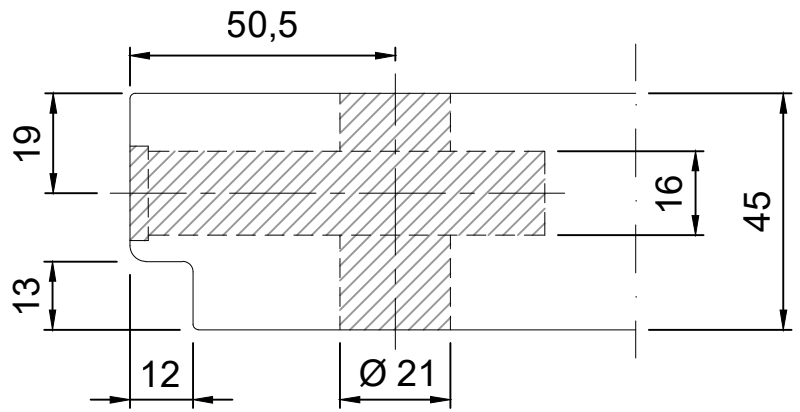

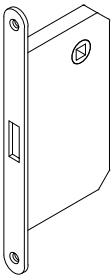

OBS: por MN consideramos as medidas da porta, exemplo 2100x820

Na versão piso teto a parte superior da folha não precisa de rebaixo
